For 2019-20, we awarded 1131 scholarships (Rs. 2.40 Crore) to students with economic constraints to fulfill their professional studies' dreams in fields such as Engineering, Medicine, Nursing, Management, Vocational/Polytechnics etc. **Majority of these students belong to Punjab and are children of laborers, farmers who are earning merely Rs. 1.80 Lakh annually.** It's been very difficult for them to support the expensive education of their children and here the support of such scholarship initiative then acts a big support. The events were held across New Delhi and Punjab. We along with our partner Sikh Human Development Foundation, USA (SHDF) support them to complete their studies and achieve their dreams. <u>Read Detailed Report</u>

Awareness drive for EWS admissions

Nishkam along with Mission Education Trust holds a month-long awareness drive for parents before Nursery level admissions across Delhi. The purpose of the drive is to assist and educate needy and vulnerable parents. Out of various government welfare schemes initiated for the public interest, **EWS (Economically weaker sections)** is the first step towards getting school admission. The dropout rates of children belonging to these families are higher. Hence, such families need to know about the benefits as most of them are illiterates and due to lack of awareness and form filling issues, an access point acts as a big relief to them. **(Feb-March)**
